

Meet Squeaky, a tiny squirrel with a big heart. Everyone in Nutty Woods thought Squeaky was the bravest squirrel around, always ready for an adventure or to help a friend.

But Squeaky had a secret: he was terribly afraid of heights! While other squirrels scampered up trees like lightning, Squeaky preferred to gather nuts safely on the ground, his paws firmly planted.

One sunny morning, the biggest, shiniest acorn anyone had ever seen was spotted. It glimmered high on the tallest, wobbliest branch of the ancient Oak, way beyond anyone's reach.

All the squirrels tried, but the branch was too thin and too high. Then, Mrs. Wobble sighed, 'Only Squeaky is brave enough to try!' Squeaky's tummy fluttered with a mix of fear and determination.

Taking a deep, shaky breath, Squeaky began to climb. Up, up, up he went, each tiny paw placed carefully. He dared not look down, focusing only on the gleaming, special acorn ahead.

The wind whistled past his ears, and the ground looked like a tiny speck far below. He almost wanted to turn back, but then he remembered the joy the acorn would bring to his friends. With a final brave push, he reached it!

Holding the precious acorn, Squeaky carefully climbed back down. His friends cheered and clapped! Squeaky realized being brave didn't mean not being scared, but doing what needed to be done anyway. He was still a little wobbly, but very, very proud of his high-flying feat.
